Num. 630.

NEWS from IRELAND.

Loughrea, June 18.

THE Drought has been so excessive great, that this Country is burned up, and our Harvest is like to be very backward; as for Meadows we shall have none at all, except Bottoms, and unless God sends Rain our Cattle can't live.

Killoneiragh, County of Clare,

June 28. We have had the greatest Drought here that has ever been remember'd; our Cattle daily die for want of Water.

Atly, June 30. 'Tis thought our Harvest here will be very bad, and that there will be no such Thing reaping the Spring-Corn it is so short; but the Wheat and Barley is pretty good what is of it, a good deal of it being blasted; the Potatoes are very backward, and likely to prove very indifferent; Meadows are scarcely worth mowing, they were better six Weeks ago; there is no such Thing as a Blade of Grass on the common Pastures, Cattle are almost famished for want of Water, and the Rivers are so very low, that we can scarcely get any Corn ground.

Limerick, June 28. Yesterday the Right Hon. the Lord Southwell was elected Mayor for the ensuing Year, to the great Satisfaction of the Inhabitants, who express'd their Joy by Bonfires, &c. Mr. Amyas Davies and Mr. John Frank were chosen Sheriffs. We expect a plentiful Harvest in this Country.

Kilkenny, June 29. Last Thursday George St. George, Esq; was elected Mayor of this City for the ensuing Year, and Arthur Henham, Esq; was sworn Recorder.

Dundalk, June 30. The general Cry amongst the Inhabitants of this Place, is, that the Produce of this Year's Crop will scarce sow their Land next season, we having had no Rains these three Months past. The Army are daily marching thro' this Town on their Rout to Armagh, where they are to be reviewed.

Malloy, June 28. Our Waters and the vast Re-
of Company afford the greatest Intelligence here: Malloy is now arrived to so great Perfection, that the Golden Age seems here once more renew'd; Nature is situate between four Hills, where Nature (with a small Assistance of Art) has render'd a most delightful Prospect; the vast Benefit our Hot-Wells afford, has daily increased the Number of our Gentlemen; and the Season has been so extraordinary, that we have nothing but daily Amusements and nightly Diversions. Our neighbouring Farmers inform us, their Trees are scarce able to sustain the mighty Produce, and their golden ear'd Corn just fit for the laborious Reapers.

Londonderry, June 28. There are now 12 Ships in our Harbour bound for America with Passengers, and notwithstanding the Discouragement they have from that Part of the World, the Persuasion of their Friends at home not to go, availeth nothing.

We have had very cold Weather until now, it is warm and there is a Prospect of a plentiful Harvest; barley by the Continuance of this Weather, to cut in ten Days time.

Waterford, June 29. The Weather is with us very pleasing, with Intervals of Showers now and then; we are reaping our Barley and Barley, and making up our Hay in great Plenty, and a Prospect of a plentiful Harvest. Corn is very cheap with us; Wheat from 12 s. to 15 s. per Barrel; Oats from 3 s. 4 d. 3 d. per Barrel; Butter 1 l. 2 s. 6 d. per Hundred.

This Day was elected for the ensuing Year Alderman Samuel Barker, to be Mayor of our City; his Brother Mr. Francis Barker, and Mr. Thomas Alcock, Sheriffs; all Bachelors, and Gentlemen very much below'd and esteem'd.

Dublin, July 2. Yesterday being the Anniversary of the Victory of the Boyne (so glorious for its Consequences) it was observed with all Demonstrations of Loyalty: The Rev. Albert Nesbit, one of the Curates of St. Catherine's, preached a very elegant Discourse on the Occasion, at St. Audeon's.

The Triumphal Pillar which is now erecting at the River Boyne, to perpetuate the Memory of that famous Battle, is almost finished.

Last Night Mr. Terson of William-street, an eminent Jamaica Supercargo, was married to Miss Ache, lately arrived from France, a Lady of great Beauty, and a Fortune of 4000 Livres.

We hear that the Extraordinary Care and Affiduity of Lieut. Col. Blakeney, in improving the Discipline of His Majesty's Forces, has been justly rewarded by the Command of one of the vacant Regiments lately conferr'd upon him. This Gentleman is allowed by all to be one of the ablest and best Officers in His Majesty's Service, and is known never to have spared any Cost or Expense for Advancement of the noble Art of War. Such a Promotion must raise a laudable Emulation in his Brother Officers, who may expect the full Reward of their Labours from a Government, which hath always declar'd its Intention to distinguish the Meritorious, and prefer the most Worthy.

Last Week Simon Bradstreet, Esq; was elected Warden of the Corporation of Barber Surgeons.

Last Monday 42 Anchors of Brandy were brought to the Custom-house; seven of which were seized last Saturday at Buldoyle, by one of the Officers of the Revenue; the rest were seized next Morning by the same Officer at Donnegarney.

The Right Hon. the Lord Chief Baron Marlay lies very ill at his House in Henry-street.

SCOTLAND.

Edinburgh, July 15. Mr. William Grant, Advocate, Son to the late Lord Cullen, and Clerk to the General Assembly of the Church of Scotland, who was appointed His Majesty's Solicitor, in room of Mr. Charles Areskine now Lord Advocate, was last Saturday received as such by the Court of Session, and had a Chair allowed him in the Inner-house, as had his Predecessor in that Office, tho' 'twas not the former Practice.

COUNTRY NEWS.

Ipswich, July 8. On Friday last at a Great Court held at the Mote-hall in this Town, the Rev. Mr. Thomas Bolton, Rector of Barham, was unanimously chosen Master of the Grammar School, in the room of the Rev. Mr. Leeds, who resigned.

On Monday the Rev. Mr. Thomas Bishop was chosen Minister of St. Mary le Tower, in the room of his Father, Dr. Bishop, deceased.

We hear that the Rev. Mr. John Broke is presented to the Rectory of Gosbeck, by Mr. Best of Chatham, in the room of Dr. Bishop, deceased.

And that the Rev. Mr. Wynn of Bury is presented to the Rectory of Creeting All-Saints, in the room of the said Dr. Bishop, deceased.

Ely, July 5. Last Friday Mary Bird was burnt to Ashes here, for poisoning her Husband John Bird, late of Maypole in the Isle of Ely. She had made the Attempt once before, but without Effect; so she went a second Time to the Doctor, and told him, He did not give her Poison enough to kill the Rats, desiring a larger Quantity, for she would destroy all the Rats about her House: So having got what she desired, she took the first Opportunity to give it her Husband in his Victuals, which put an End to his Life in a short Time. She confess'd she had lived wickedly most Part of her Life; acknowledg'd the Fact, and Justice of her Sentence.

Bristol, July 9. Our City was in a sort of Consternation last Saturday Evening, about half an Hour after Five, at the most heavy and surprising Storm Rain, Thunder, and Lightning, that can be remember'd ever to fall upon it, which lasted without Intermission about three Quarters of an Hour. The Rain, which came down like Sluices, soon flooded the Streets, many Houses and Cellars, and did considerable Damage to the Furniture, Shop keepers Goods, &c. and one Man lost his Life near the College-Green. Never was seen such a Fall of Water from the Hills, which came down with that Rapidity as tho' several Rivers had opened their Banks.

Letters by the last French Mail from Florence, dated the 14th ult. O. S. say, that the Great Duke of Tuscany continued in a dangerous Condition, having still a Disgust for Food, and that his Physicians have begun to give him over. His Sister the Electress Palatine, often goes to visit him, and several Conferences are held between the Ministers of that Prince and the Duke of Lorain's Minister, how the Government shall be administer'd, in case he should die. They talk of constituting a Regency, to consist of the Electors, Prince Craon, the Marquis de Ruccini, and a General who is to be appointed by the Duke of Lorain. In the mean time a Courier is dispatch'd to Vienna, to give notice there of the present Situation of Affairs in Tuscany.

There's no Advice yet of Theodore's Arrival at Corfica, from whence we hear of no Action; but that the Rebels have all taken the Field, not with the Sword, but with the Sickle.

His Death is universally regretted by all who had the Happiness to know him; and it is impossible it should be otherwise, since his Life was a Benefit to every one within the extensive Circle of his Acquaintance: He was a great Encourager of Trade in all its Branches, and particularly of Shipping, which he was reckon'd to understand equal with, if not superior to, any Man now living in England. A just and punctual Paymaster, a firm Friend, a beneficent Neighbour, a kind Master, and a most indulgent Father, to the most dutiful of Children.

Alexander Stewart, Esq; is shortly expected here from Ireland with his new-married Lady Miss Cowan, Sister to the late Sir Robert Cowan, formerly Governor of Bombay, with whom he had a Fortune of 140,000*l*.

On Friday next the Justices of the Peace for the City and Liberty of Westminster, meet at Westminster Hall, pursuant to their last Adjournment.

Jo: Ayloffe.

The so-much Fam'd HYPO-DROPS.

Which in a few Days infallibly cures HYPOCHONDRIACK MELANCHOLY in Men, and the VAPOURS in Women, so as never to return again, be they ever so severe, or of many Years standing, and even after all other Remedies have prov'd ineffectual: and that by immediately striking at the very Root or true Cause, as well as removing the Effects, of those perplexing Maladies and all their various Symptoms, by which they smother, by Turns, almost all the Diseases poor Mortals are afflicted with, and have their Rise from a depraved Appetite, vicious Ferment in the Stomach, and Indigestion of Food, whence proceed Crudities and flatulent or windy Disorders in the first Passages, Belchings, Cholick, Uneasiness in the Bowels, and ill Humours which offend the Nerves, and, by Consent of Parts, affect the Head, and produce sometimes Giddiness, Dimness of Sight, confused Thoughts, pertinacious Watchings, troublesome Sleep, Frights, groundless Fears, and the deepest Melancholy with dire ul Views and terrible Apprehensions, at other times, Fits, Flushing Heats, Reachings, Faintness, Lowness and Sinking of Spirits, Palpitation of the Heart, Strappings, Tremblings, and Twitchings in the Limbs and other Parts, with many convulsive Disorders, sharp Pains, fix'd or wandering Pain and Weakness in the Back, and other, almost innumerable and grievous Symptoms, which miserably afflict vast Numbers of both Sexes.

All which Symptoms, in their sharpest Paroxysms, these so-much fam'd and most pleasant Drops, (which are Chymically prepar'd from the most valuable Specificks in the Mineral, Vegetable, and Animal Kingdoms, and exalted to the highest Degree of Perfection possible) instantly quell, and at the same time annihilate their real Cause, directly bringing the Stomach into right Order, creating a good Appetite, rectifying the Digestion, occasioning laudable Chyle, and, of course, good Blood, Plenty of calm, free, and cheerful Spirits, a regular Circulation of all the Fluids, and Strength of Nerves, so that both Cause and Effects of Melancholy and Vapours, are thoroughly removed by them, almost on the Spot, as the many Thousands of both Sexes they have peritely cur'd, evince.

Whoever takes them for 3 Days only, will be sensible they are absolutely to be depended upon for an effectual and lasting Cure, and certain it is, that no Medicine upon Earth can equal them; be careful therefore to have the right Drops, which are to be had only at Mrs. Holt's, at the Cross-Key and Star in Cornhill, near Stocks-Market, at 3 s. 6 d. a Bottle, with Directions.

The Great Carminative.

A most famous Tincture for the Wind Cholick,

IN what Part soever lodged; for at once taking, and in five Minute's Time, it perfectly cures the severest Gripings in the Guts, and immediately expels the Wind from the Stomach or Bowels (as it were) to a Miracle.

For all wandering Pains in any Part soever, which are some Persons the Forerunners of a fixed Rheumatism, in others the Gout (mistaken many times under the Notion of Scorbutick Ailments) this famous Medicine has not its Fellow, having wrought Wonders in these Cases on great Numbers of People, who, before taking it, could neither sit, stand, nor lie at Ease; but were in intolerable Pain Night and Day, and in taking less than half a Bottle, were absolutely freed from their present Pain, and, by a short Continuance of the Course, recovered to perfect Health again.

As for any Belchings or Hiccups, proceeding from Wind, or, in short, in any Case of Wind, it may be depended on to be the best, safest, most expeditious, and most sovereign Remedy ever yet known.

It is sold only at Mr. King's Picture Shop in the Postern, near the Royal Exchange, and at Mr. Martin's Toy-Shop, the Sign of the Three Rabbits near Durham-yard, in the Strand, at 3 s. the Bottle.

By the said Mr. King and Mr. Martin is also sold for 3 s. the Bottle.

The Princely beautifying LOTION.

Whole INIMITABLE VIRTUES and TRANSCENDENT EXCELLENCIES have gained it so much Reputation, that envious Imitators endeavour, tho' in vain, to counterfeit it.

It beautifies the Face, Neck, and Hands to the utmost Perfection, and is in the greatest Esteem amongst Ladies, &c. of the first Quality. No Words can sufficiently express its Virtues; for it is not of the Nature of Paint, which puts a false and unnatural Gloss on the Skin; but is a Remedy that, by its Use, really gives a Lustre to the most Beautiful, by showing the fine Features of the Face, and is so safe, not having the least Grain of Mercury in it, that it may be taken inwardly, and it smells to, is really good against Vapours.

It infallibly kill Worms in the Face, takes away Freckles, Spots, Wrinkles, Pits, or Marks of the Small-Pox, and assuredly cures any Defects in the Face, giving a charming youthful Lustre and fine Air to the Features, to Admiration.

As for such Persons as are of a swarthy Complexion, or troubled with any disagreeable Redness, Roughness, Morphea, Heats, or the like, it is not to be parallel'd; for it immediately smooths, clears, plumps, nourishes, and whiten the Skin to the last Degree, and makes those Persons who before look'd ragged and old, to look young, beautiful, and fair; and, in short, it far exceeds any thing that was ever yet known, made publick, for clearing and beautifying the Skin.
